

Mandela Day Garden Project

Oasis Haven is celebrating Mandela Day this year by launching a project that is both educational for the children and impactful for organisations looking to make a positive difference as we celebrate Nelson Mandela's legacy.

We are inviting individuals, departments and companies to sponsor a flower bed in our Mandela Garden with plants of your own choosing. To secure a flower bed raise R2000 as a department or get the company to donate the full amount.

The Mandela Day Garden Project will have 2 phases to it:

Sponsorship and Social Responsibility

The donation made will go directly towards the children's school fees for the remainder of the year. The donation made to Oasis Haven will be in line with Nelson Mandela's belief that education is a powerful tool. On Mandela Day, groups will join us at our homes to plant vegetables or flowers of their choice. Each group will choose their favourite Mandela quote; send it to us alongside the company logo that we will print and place on a plaque to be placed in the sponsored bed.

Education and Feedback

The girls and boys at Oasis Haven will then be tasked with maintaining the Mandela Garden. The children will write a report on Nelson Mandela, his legacy and what it means to them. We will then share these reports with everyone that contributed to the Madiba Garden. Furthermore the children can consume the vegetables which will save much needed funds and ultimately aid to our goal of sustainable development.
